

Outdoor Adventure Apps

Features & Benefits

- Real-time information and resources such as maps, weather conditions, alerts, and recommendations
- Personal logging and tracking to stay motivated
- Variety of social features to connect with others

App Examples

- Find and navigate trails to hike, bike, walk, or run: **AllTrails, Strava, Komoot**
- Find camping spots and make reservations: **The Dyrt, Campspot**
- Explore parks: **National Park Service, Recreation.gov**
- Use phone's camera to identify plants, animals, birds: **Seek, Merlin Bird ID**
- Stargazing: **Skyview Lite, Stellarium**
- Fishing: **Fishbrain, FishAngler**
- Hunting: **onX Hunt, HuntStand**

Considerations for Choosing Apps

- Reviews/ratings in the App Store or Google Play Store
- Cost: Compare features in the free limited version vs Premium/Pro version
- Offline features & connectivity requirements (WiFi or mobile data)
- Privacy practices with data and tracking

Privacy & Security

- Review app privacy practices in the app description in the App Store or Google Play Store
- Give access to location/camera only when using the app
- Download apps from reputable sources
- Keep apps and device software up-to-date
